

MVP Geriatric Care

Some of the most valuable horses we own could be labeled as “senior citizens.” Because older horses have unique conditions and illnesses, Mobile Veterinary Practice is introducing MVP Geriatric Care. This wellness program is designed to keep you and your family enjoying these beloved members of the household for many days to come.

Preventative medicine is the key to stopping health problems before they impair your horse’s performance or become life-threatening. By encouraging regular veterinary care and fostering an improved relationship between the horse owner and the veterinarian, MVP Geriatric Care helps make exceptional health care possible even later in life.

Mobile Veterinary Practice is able to offer you a discounted rate by purchasing all your MVP Geriatric Care products and services at once. In addition, if your horse requires an out of hours emergency call during the year it is covered under the MVP Geriatric Care program, Mobile Veterinary Practice will wave the \$75 after hours charge.

MVP Total Care includes:

Physical Exam X 2	\$70
